Front-end: React, Next.js, TypeScript, JavaScript, HTML, CSS/SCSS, jQuery, AngularJS

Databases & Testing: PostgreSQL, SQL Server, MySQL | JUnit, Mockito, Cypress, FitNesse

DevOps & Infrastructure: GitHub, Docker, Kubernetes, RabbitMQ, IIS

CMS & E-commerce: Coperon CMS, WordPress, payment solution integration

Methods & Project Management: Agile/Scrum, Jira, ClickUp

PROFESSIONAL EXPERIENCE

Software Engineer - Apprenticeship | Société Générale • Paris

Sep. 2025 - Present

- Develop and maintain an internal risk assessment platform within a cross-functional product team.
- Implement back-end features with Java/Spring Boot and front-end features with React.
- Build data-access components with MyBatis/PostgreSQL and strengthen code quality through JUnit and Mockito tests.
- Collaborate with developers and business analysts to deliver functional enhancements in an Agile/Scrum environment.

Stack: Java, Spring Boot, React, MyBatis, PostgreSQL, JUnit, Mockito, GitHub, Jira

Full-Stack Developer - Permanent | Coperon Technologies • Lebanon

Nov. 2023 - Sep. 2025

- Developed and customized 30+ websites, product catalogs and e-commerce solutions using the Coperon CMS.
- Built back-end features with C#/ASP.NET and SQL Server, and dynamic interfaces with JavaScript, jQuery and AJAX.
- Integrated payment solutions including Areeba, PayPal and PayTabs, and handled corrective and ongoing maintenance.
- Managed IIS deployments, hosting, domains, DNS and SSL certificates.

Stack: C#, ASP.NET Web Forms, SQL Server, JavaScript, jQuery, AJAX, WordPress, IIS

Full-Stack Developer - Freelance & Personal Projects | Freelance

2022 - 2025

- Designed and developed web applications with React and ASP.NET Core, from requirements gathering through deployment.
- Integrated REST APIs, managed SQL Server databases, and handled hosting, domains and SSL certificates.

Stack: React, ASP.NET Core, REST APIs, SQL Server, JavaScript, IIS

Full-Stack Developer - Internship | BTekUp • Lebanon

Jun. - Oct. 2022

- Contributed to the full-stack development of e-commerce features, primarily using AngularJS.

Full-Stack Developer - Internship | Echo Valley

2022

- Contributed to web application development using Vue.js, Nuxt.js, Laravel and Node.js, including real-time features.
